

What were some of the issues that RMT uncovered?

- Researchers required to self-navigate the clinical research landscape
- Fragmentation of support resulted in redundant activity by researchers across the enterprise
- Inequitable access to data management, statistics and clinical research resources
- No cost efficient and compliant tools for moderately funded projects
- Issues related to data provenance
- Data security challenges

8

from AAMC Meetings to All Attendees:
Thank you for joining us. If you have not joined the teleconference yet, please click on "Communicate" in the top left hand corner of your screen, click "Teleconference", and then "Join Teleconference". The teleconference information will then appear.
